TO WHOM IT MAY CONCERN

This is to certify that EMAN ALI D/O ZAHID HUSSAIN having VUID bc210206253 was a student of Virtual University of Pakistan in the program BS Computer Science. It is worth noting that the medium of instruction at Virtual University of Pakistan is English.

She has been my student in the course of “ Data Warehousing (CS614) ” and her performance in the course was good. She was very committed and self-motivated. She has a deep understanding of all related concepts that have come across during her course work. She is well versed in computing tools and programming skills as well.

I am sure she will learn more to grow intellectually and professionally. I support EMAN ALI for higher studies and scholarship as she possesses the required potential and attitude of studying in the higher program. I wish her good luck for her bright future.

A handwritten signature in blue ink, appearing to read 'Dr. Muhammad Salman Bashir'.

Dr. Muhammad Salman Bashir

Assistant Professor

Department of Computer Science and Information Technology

Virtual University of Pakistan
